Attorneys with a CM/ECF account in this district may sign up to receive courtesy notification of the electronic filing of documents in a case. By docketing a **Request for Courtesy Notification of Electronic Filing (text only)** event, the CM/ECF filer will receive NEFs of all docket activity in that case without appearing in the case or filing a pleading. Filers wishing to stop receiving courtesy notifications in a particular case must docket the **Request for Deactivation of Courtesy Notification of Electronic Filing (text only)**.

Requests for activation of courtesy notification may only be made through CM/ECF by filing the text-only events found under the Courtesy NEF menu. The courtesy notification events are only available to attorneys with CM/ECF filing accounts in our district.

The courtesy NEF does not create any rights to receive notice under Fed. R. Bankr. P. 2002 or otherwise, and does not impose any obligation on the Court, the debtor or other parties in the case to deliver courtesy copies of any documents entered on the docket. Deactivation from courtesy notifications cannot be used for withdrawal or substitution of counsel, LBR 2089-1 Withdrawal and Substitution of Counsel.

See the following page for step-by-step docketing instructions.

Effective 4/1/2026, LB Form 10 - Request to be Added or Removed from Courtesy NEF – abrogated and replaced with text only events to activate or deactivate courtesy notification in a case.
