Statistics Request Overall Description

On April 17, 2025, Research & Statistics received a request for a report of CDW status complaints closed with a formal court referral from 7/1/2022 to date. It was also requested that counts of these complaints be broken down by status offense type, county, and month, and close reason.

AOC CDWCMS, the case management system utilized by AOC Court Designated Workers, was queried for two statewide data sets: status complaints closed with a close reason group of formal court referral from 7/1/2022 to 4/28/2025.

Statistical Table (25_CDW6010)

Statistical Table 25_CDW6009: Contains 93 pages of statewide data related to CDW status complaints closed with a close reason group of formal court referral from 7/1/2022 to 4/28/2025.

Page 1 displays two stacked-bar visualizations. The left bar chart shows the percentage of distinct status complaints closed with a formal court referral during the given timeframe, broken down by fiscal year and month of the complaint close date, and status offense group, with a separate unique color indicating each group. The right bar chart provides the same data, but with the count of complaints instead of percentages.

Pages 2-11 provide a cross-tabulation that displays the counts of status complaints closed, grouped by complaint close year, close month, close reason, and Status Offense Group.

Pages 12-93 present the same data as Pages 2-11, but further broken down by complaint county.

Statistical Analysis Considerations

- The statistical information presented is a snapshot in time as of run date.
- Counts of complaints are not the same as counts of youth or charges, as a single complaint may contain one or more charges and a single youth may have multiple complaints within a given time period.
- Data for April 2025 is incomplete, as the report was run before the conclusion of the month.
